

Roberto Javier Albanesi

albanesi.roberto.javier@gmail.com

I am 28 years old. I come from Argentina and live in Stockholm. I am studying Computer Science. I finish my degree called Analista Programador Universitario.

University

In college I have learned data structures, several programming languages(Java, Pascal, C, Smalltalk, PHP, Javascript, Python), Agile Methodologies, Design patterns, Refactoring, frameworks, databases(SQL), software engineering, concurrent computing, parallelism, GPGPU and REST API among others things related to Computer Science. Also, I was part of a group in an AI project, based in pedestrian recognition.

Description

I am a quick learner.
